

Hello Danny and Guy,

I thought you might be interested in knowing that the Nature Trust has secured Peases Island--adding to a growing assemblage of islands protected forever as conservation lands. You can see our blog story here. <https://nsnt.ca/blog/peases-island-protected/>

Nova Scotia Nature Trust – A Homecoming Gift for Birds: Peases Island Saved for Migratory Birds

At such a difficult time for all of us, nature is a great source of hope and inspiration. As we hunker down and stay close to home due to the pandemic, our avian friends are just beginning a miraculous long-distance adventure.

nsnt.ca

We are looking forward to continuing to work collaboratively with local community members and other conservation partners to ensure the future of these very special islands.

Your very own Alix d'Entremont has been a fantastic volunteer for the Nature Trust, and source of tremendous knowledge and support for our efforts.

Bonnie
